

From first mile to last mile and everywhere in between, manufacturers, distributors, and retailers depend on Matson Logistics to create cost-effective and transit-optimized intermodal and highway solutions for their JIT shipments.

INTERMODAL COVERAGE ACROSS NORTH AMERICA

- Dedicated capacity with a private fleet of Matson 53', 45', 40', and 20' containers with access to more than 100,000 pooled units. The only intermodal service provider with inventory and capacity of all container sizes to best fit your shipment and load weight.
- Tier One agreements with all North American Class I railroads and other service providers offer the capacity, rates, and routes to meet your service requirements in every lane.
- For time-sensitive freight we provide premium intermodal services designed to compete with single-driver highway transit. Every transit option available, from standard Ramp-to-Ramp to full-service Door-to-Door.
- Reduced carbon footprint for your products: trains can move one ton of freight up to 480 miles, versus just 59 miles for trucks.
- Service to, from, and intra-Mexico and Canada.

"ANY SIZE, ANY DISTANCE" HIGHWAY SERVICE

- Network of 84,000+ contracted truck carriers ensure capacity, even during peak season or panic conditions. All are vetted through an internal monitoring team to ensure we only use high-quality, insured, and reliable carriers.
- As a top 40-ranked brokerage, we negotiate "buy" rates that are more competitive than the market average.
- More than 110,000 OTR shipments delivered each year with a 98+ percent on-time performance record.

OVERSIZE, HEAVY HAUL, PROJECT, BREAKBULK

- Flatbeds, Step Decks, Double-Drops, RGNs, Side Curtain, and Lowboys.
- In-House Project Team to create load plans, secure equipment, and ensure JIT delivery.
- Custom route planning with state permits and escorts as needed.
- Carefully selected specialized carriers with nationwide, regional, and local coverage.

WAREHOUSING AND DISTRIBUTION

- 1.6 million square feet of company owned and operated logistics centers in Oakland CA and Savannah GA.
- 100% RF Wireless Network (Warehouse and Yard) for carton-level inventory management.
- Savannah operates 189 dock doors (32' clear) with parking/storage for 700+ trailers.
- Oakland offers both ambient and air-conditioned space and incorporates Northern California's only multi-use Foreign Trade Zone.
- Heavyweight container service up to 58,000 lbs.; both logistics centers located in port heavyweight zone.

HIGH-TOUCH TECHNOLOGY

- Automated shipment tracking to report current location and status via API, EDI, ASN, XML, e-mail, or secure Internet access.
- Dedicated 53-foot container fleet equipped with cloud-connected telematics, including GPS location, cargo sensors (empty/full), and door activity alerts (open/closed/breach).
- Proprietary, in-house systems to manage intelligent, responsive networks, optimize loads and lanes, secure capacity, and monitor carriers. Dedicated IT team ensures a 99.99 percent uptime, integration with your TMS, and continuous system enhancements.

"It seems no matter whom we speak with on your team, whether it's our primary contact or one of the dedicated back-ups, they are always knowledgeable and aware of what project we are working on and prepared to help us."

— World's-largest solar panel manufacturer

PERFORMANCE

- Ranked Gold 5 of the last 6 years (2017-2022) for Intermodal Service by shippers in the Quest for Quality Awards (Logistics Management Magazine).
- More than 250,000 intermodal and highway shipments per year with just 0.10 percent claims rate.
- Selected Carrier of the Year by DICK'S Sporting Goods, Ravago, and Samsung.

"Thank you all for a great year and on-time deliveries. You are the ones I go to when it to needs get done; you come through each and every time. You all should be very proud of the work you do. Logistics is a MESS most of the time, but I would not know it when working with the Matson Logistics' team."

SUSTAINABILITY

- Matson Logistics and Matson, its parent company, continuously invest in sustainability initiatives across our enterprise—from the design of our new, state-of-the-art vessels to the modernization of land operations and facilities, and to the continuing education of our people. Our sustainability initiatives are available from the Matson [website](#).
- Matson Logistics has been awarded a Top Green Logistics Provider 2020-2022 from Food Logistics magazine. We participate in both the Clean Cargo Working Group and the EPA SmartWay[®] program.

"I am beyond impressed by Matson Logistics' operation. You folks are one of a kind and we are very grateful for the partnership."
